

Samsung SV DVD1E

With the SV-DVD1E the user can enjoy both a DVD player and a VCR in the shelf space for only one player. The device offers both quick and simple connection with different output terminals. Two different Laser Diodes for DVD discs and CD discs enhance disc compatibility. They allow the player to play CDs, VCDs, and CD-DA discs that are copied from CD-Rs as well as CDs. More menu graphics make this DVD player very user-friendly. Watch the desired scenes with an easy to use remote control that controls all the features. It's unique and it features fantastic quality!
